

19 September 1961

STATINTL

The attached is an excerpt from a trip report by our people who visited [REDACTED] on the 12th and 13th of September for the purpose of determining the acceptability of a 2-1 Reduction Printer designed and fabricated by [REDACTED] for delivery to us. I feel that the remarks noted by our representatives during this testing period are of significance to you and am forwarding them purely for the purpose of acquainting you with an outsider's views of some of the conditions at [REDACTED] in which you are undoubtedly interested.
